

How to compare shop software

WW-COMPARE · 2026.1-draft · effective 21 August 2026 · review quarterly

DRAFT. Fair claims only. Not a ranking. Not legal advice.

Fair evaluation framing — not a “best software” claim. Feature labels follow our honesty matrix (working / shell / stub). Competitors change; re-verify before print runs.

Capability	Workshop Wrench	What to check elsewhere
Job board + RO	Working in demo	Stage model and drag
GST tax invoice fields	ATO validators in domain	Title + ABN + \$1,000 buyer
Customer portal authority	Working	Line-level decide
DVI	Growth entitlement	Photo + severity
SMS / payments	Stub until keyed	Do they gate SMS?
SOC 2 / uptime %	Not claimed	Certificate vs badge
AU tenancy	tenantId isolation, AU-first copy	US-only tax

Sources: public marketing pages. Not a paid placement. Request a demo to walk the seeded garage.

Templates assist workflows. They are not legal advice, not a government form, and not a certification. Counsel must review before paying tenants or public compliance claims.
