Four pages condensed to a readable brief for owners, advisors, and accountants.

1 · The problem

Whiteboards leak labour. Quotes become invoices without authority. GST fields get hand-typed. The owner finds out at month-end.

2 · The board

Every repair order moves left to right. Advisors approve lines. Technicians see My Day. Parts reserve on approve. Change orders when the job grows (BR-006).

3 · Money path

Estimate → authority → tax invoice → receipt. Shop invoices are GST documents for your customers. SaaS subscription invoices are a separate SPECIMEN path until our ABN is filled.

4 · Parts Exchange

Optional B2B add-on for surplus and trade parts. Pilot legal. Not eBay for consumers. Delayed payout is not escrow.

Templates assist workflows. They are not legal advice, not a government form, and not a certification. Counsel must review before paying tenants or public compliance claims.
