

Desktop shell licence

WW-DESKTOP · 2026.2-draft · effective 21 August 2026 · review quarterly

DRAFT — not legal advice — not counsel-reviewed. Early-access copy for Workshop Wrench. Do not treat this as a GA customer contract. The legal entity ABN is not yet recorded; party blocks are SPECIMEN.

What the desktop shell is

The packaged desktop app is an allowlisted webview of the shop origin (ADR-0018). Trial authority is the API clock, not the installer. Heartbeat uses server time. You may not point the shell at arbitrary origins in production packaging.

The licence is not DRM theatre and not an uncrackable lock. It is a convenience shell for bay PCs. SaaS terms still apply.

Templates assist workflows. They are not legal advice, not a government form, and not a certification. Counsel must review before paying tenants or public compliance claims.
